# BEAUTY IN EVERY DETAIL.<sup>TM</sup>

When you're looking for the perfect combination of beauty, style and durability, nothing compares to Luxart's® range of quality faucets and sinks.

Luxart® has a solid reputation of combining the finest materials with striking designs. It all starts with expert craftsmanship in beautiful finishes that fit every décor.

# CLEAN IS CLASSIC

Trends come and go, but certain things are always relevant...like cleanliness. When we commit to living clean, we're more sanitary, we minimize germs and, ultimately, we improve our health. Luxart® offers several products that emphasize this integral form of wellness.

## UBEN® FILTRATION FAUCET

The Uben® kitchen faucet is double-filtered, removing or reducing common toxins. The result is fresh, clean drinking water right from the tap.

## SIMPLESATION® TOUCHLESS FAUCETS

SimpleSation® faucets keep life's everyday messes in the sink. Simply pass your hand in front of the infrared sensor to turn water on and off.

## BIDETS SEATS

Personal hygiene is vital to our health. A bidet provides a refreshing stream of clean where and when we need it most. Luxart® offers electronic or manually-operated options.

FAUCET  
TECHNOLOGY.

# MEET SIMPLESATION & WAVE HELLO GO TO GOOD HEALTH!

Now Luxart's new hands-free operation allows you turn on your faucet without touching it. Easily tackle tough tasks or make hand washing a lot less haphazardous! SimpleSation® helps control germs and keeps your faucet clean. To control a Luxart faucet with SimpleSation®, just Wave on and Wave off. The infrared sensor on the side of the faucet base detects the motion sensation and responds in a  $\frac{1}{4}$  of a second.

# Luxart® VitaBella®

CANALE6327OF

Characterized by simple lines and clean features, free standing tubs have become a magnificent focal point to the bath, giving it a spa-like appearance. Luxart VitaBella tubs are made of mineral composite, an organic mixture of ground natural minerals and binding agents that are liquefied, poured and then hardened. The result is molded stone, solid through and through with no layers, hollow or void areas and a deep-soak bath experience unlike any other.

Luxart® AltaBella tubs are made from pressed premium-quality acrylic sheets and have a deep, durable color layer to ensure a lifetime of beauty. They are less susceptible to chipping than cast iron or steel tubs. And, these durable, versatile tubs are strong and lightweight, making them easy to carry and install, especially on second story homes or upper level condos or townhomes. Each tub includes adjustable feet underneath to ensure the tub sits level with your current foundation. All tubs include a standard polished chrome integral drain and overflow.

Presenting Luxart® Steam Shower Systems.

# THINGS ARE ABOUT TO GET REAL STEAMY AROUND HERE.

#### MUSCLE RELAXATION

Steam showers generate moist heat which widens blood vessels releasing tension in aching muscles by allowing more oxygen to flow through the muscle tissue.

#### RESPIRATORY HEALTH

Those suffering from respiratory problems find relief in steam therapy as it soothes throat irritation, loosens phlegm in the lungs and loosens mucus.

#### SKIN REJUVENATION

Steam hydrates the skin pores and more efficient blood circulation from a steam shower gives skin a healthy glow.

#### DETOXIFICATION

The soothing warmth of steam opens pores. Sweating profusely, the skin on the body releases toxins from everyday living.

#### STRESS RELIEF

The heat and moisture combination in steam rooms offer a relaxing atmosphere to calm the mind and lower stress levels.

#### BETTER SLEEP

There is a correlation between steam therapy and quality sleep patterns. Relaxing for 20 minutes at the end of the day in a steam shower regulates the body's core temperature and increases blood flow.

Who doesn't like a little R&R? The all-new Luxart® Steam Shower Systems provide a relaxing atmosphere of moist heat that promotes health and wellness. In addition to comfort and a positive influence on mood, steam has therapeutic benefits for the muscular, cardiovascular and respiratory systems.

TIMELESS STYLE  
AND DURABILITY

FROM TRADITIONAL DÉCOR TO COZY URBAN DESIGN, FIRECLAY SINKS HAVE TIMELESS APPEAL. THESE SINKS OFFER LONG-LASTING DURABILITY AND SHINE.

Sink: LXFC2520WH  
Grid: LXBG2217SS

### STRENGTH

The finest fireclay is fired at high temperatures for long-lasting durability that is scratch and stain resistant.

### REVERSIBLE DESIGN

Farmhouse sinks can be installed with a traditional flat front or a decorative band feature at the top.  
*Available in select models.*

### DRAIN FITTINGS

Luxart fireclay sinks use standard drain fittings, sold separately.

### QUIET

Thick material naturally minimizes sound for a quieter time at the sink.

### NON POROUS MATERIAL

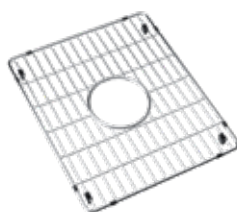

Now, you don't have to worry about unwanted bacteria sticking to the surface or spreading.

### FARMHOUSE DESIGN

Beautifully finished sink material is revealed because there is no cabinet to cover the front of the sink. It adds a stylish design element to the kitchen.  
*Available in select models.*
