FREE STANDING
ACRYLIC BATHTUBS

Freestanding tubs are the ultimate in luxury. Serving as the centerpiece of your bath, they create a beautiful spa-like environment in your own home.

Luxart® AltaBella tubs are made from pressed premium-quality acrylic sheets and have a deep, durable color layer to ensure a lifetime of beauty. They are less susceptible to chipping than cast iron or steel tubs. And, these durable, versatile tubs are strong and lightweight, making them easy to carry and install, especially on second story homes or upper level condos or townhomes. Each tub includes adjustable feet underneath to ensure the tub sits level with your current foundation. All tubs include a standard polished chrome integral drain and overflow.
