

Luxart® VitaBella®

PA211-PUCP

CANALE6327OF

Characterized by simple lines and clean features, free standing tubs have become a magnificent focal point to the bath, giving it a spa-like appearance. Luxart VitaBella tubs are made of mineral composite, an organic mixture of ground natural minerals and binding agents that are liquefied, poured and then hardened. The result is molded stone, solid through and through with no layers, hollow or void areas and a deep-soak bath experience unlike any other.
