

## LUXART® SHOWER COLUMN RAILS

Convert any shower into a  
spa-like retreat.

Transform your shower without going behind the wall. The Luxart® Shower Rail Column mounts easily to existing plumbing, regardless of the brand or manufacturer. Simply remove the old shower arm and replace it with the Luxart® Shower Column Rail. The column itself serves as a slide bar to move the hand shower up or down and the hand shower mount pivots to adjust the spray angle; plus, the hose connection swivels to allow the shower hose to move about freely.

The Luxart® Shower Column Rail is available in either a modern or traditional to best fit your style. Choose from Polished Chrome or Brushed Nickel (*traditional version also comes in Oil Rubbed Bronze*).

Are you ready to update your Bath? We are ready for you.

LUXART.

Beauty in every detail.™
